

Concrete Hopper

Concrete Hopper - The self-dumping hopper accessory can automatically trigger to both dump and release as the bumper release contacts the side of a dumpster. Once unloading is done, the hopper can return to original locked and upright position. This piece of machinery likewise comes with a cable which enables operation from the seat of the lift truck so as to have the option of manually unloading the hopper. There is a locking chain provided in order to lock the hopper to the tine truck. This product is made with consistent and reliable robotic welds for utmost strength. The lift truck dumping hopper even has a blue powder coat finish in order to maintain durability.
