

Meritor Parts

Meritor Parts - The Meritor Company is a leading international dealer established upon 100 years of tradition of quality and service. Meritor specializes in integrated systems along with several modules and components to the original machinery manufacturers and aftermarket equipment in the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and believes that this particular energy contributes to their competitive advantage in the international operations. The company values all of their clients and wants to guarantee their success while anticipating their different requirements. Meritor begins with a culture which values diversity of people and their broad thought processes. Operating in 19 countries and hiring over 11,200 people, Meritor encourages collaboration and innovation among a team of knowledgeable professionals.

Meritor strongly believes in just hiring future focused people. These top-caliber workers can quickly get used to to changing surroundings and freely demonstrate the level of commitment and performance necessary in order to get results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides all their employees various opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering which comprise drivelines, axles, braking and suspension systems designed for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is likewise responsible for supporting the requirements of all their global engineering employees.

Meritor's customer focused and dynamic Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated all over the world in 19 nations and in 5 different continents.

The supplier development network is specifically situated in order to support new business growth. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making in every aspect of the business. The DFSS or also known as Design for Six Sigma ensures product reliability in every region. The team is even comprised of transactional Green Belts who make use of Six Sigma tools to business processes and implement lean methods.
